UI/UX DESIGNER

439,harveypatti, Madurai | saranraj9738@gmail.com | 93841 17094

SUMMARY

Aspiring UI/UX designer with a creative mindset and strong observation skills. Passionate about designing simple, user-friendly experiences.

TECHNICAL SKILLS

- Mobile & Web UI Design
- High-Fidelity Design & Interactive Prototyping (Figma)
- Visual Design Basics (Canva)

SOFT SKILLS

- Teamwork and Collaboration
- Patience and Active listening
- Creative problem solving
- Adaptability

EDUCATION

M.Sc.Computer Science ,The Madura College (pursuing)
B.Sc.Information Technology, The MaduraCollege -76%
Higher Secondary (12th), M.M. Higher SecondarySchool -81%
Secondary School (10th), M.M. Higher Secondary School -74%

PROJECTS

1.Ride App (UI/UX Design) — Figma

- Designed a two-sided app with clear role selection ("Want Ride" vs "Give Ride") to reduce decision friction and encourage matches.
- Created simple, colorful screens for login/registration, location entry (source/destination), ride posting, and available rides list with request buttons.
- Built clickable Figma prototype demonstrating full user journeys, including profile views (rider details, vehicle info) and navigation flows.

2.Music Healing Application (UI/UX Design)

- Designed a calming interface for personalized music therapy, featuring ailment selection cards (e.g., Headache, Anxiety, Back Pain) and auto-conversion upload flow.
- Developed screens with thematic elements like music notes, play buttons with timers, informational healing explanations, and start/upload actions.
- Created interactive Figma prototype showing seamless navigation from home → ailment choice → upload → playback, emphasizing quick access and trust-building info.
